GAME OVERVIEW: CHEEKY EMPEROR

Game Description (for Players)

Join us on an Asian-inspired adventure!

Set across 5×3 reels, Cheeky Emperor™ is home to 243 paylines with symbols depicting lucky coins, scrolls and other Chinese-themed symbols. The game has two different bonus games packed into it, one of which is randomly triggered by the games wild after landing on the game board. Presenting you with a choice of 12 different coins to choose from, matching three prizes will award a corresponding jackpot that can climb as high as 1,000x.

The free spins round is awarded for landing at least three scatter symbols in the base game and begins by removing all low-paying symbols from play, leaving only the highest paying symbols throughout the round. This increases the winning potential on offer and is key to unlocking Cheeky Emperor™'s huge 2,500x max win.
